## Project Experience

### 1. Interactive Web Application for Event Management

Developed an interactive web application for managing events using ReactJS and TypeScript. The application allowed users to create, edit, and delete events, with real-time updates facilitated by

REST APIs. Implemented responsive design using HTML and CSS, ensuring compatibility across various devices. Utilized Git for version control and collaborated with a small team to enhance the app's functionality.

Technologies and tools used: ReactJS, TypeScript, HTML, CSS, REST APIs, Git.

## 2. Online Portfolio Website

Created a personal portfolio website to showcase projects and skills using AngularJS and JavaScript. The site featured a dynamic gallery and contact form, with smooth navigation and transitions powered by CSS animations. Integrated REST APIs to fetch and display real-time data from external sources. Managed code versions and collaborative updates through GitHub, leveraging knowledge from the GitHub Certified Associate certification.

Technologies and tools used: AngularJS, JavaScript, HTML, CSS, REST APIs, Git, GitHub.
