Project Experience

1. Interactive Web Application for Event Management

Developed an interactive web application for event management using ReactJS, JavaScript,

HTML, and CSS. Designed the user interface with Figma and Adobe XD, ensuring a seamless user experience across devices. Integrated REST APIs to enable real-time updates and notifications, enhancing user engagement. Utilized Git for version control and collaborated with a team of developers to implement agile methodologies, leveraging my Professional Scrum Developer certification.

2. Collaborative Design Platform

Led the design and development of a collaborative design platform utilizing Sketch, InVision, and Bootstrap. Created intuitive user interfaces and prototypes that facilitated real-time collaboration among design teams. Implemented responsive design principles to ensure compatibility across various devices and screen sizes. Integrated REST APIs to support dynamic content updates, and managed code versions using Git to streamline the development process.
