Project Experience

1. Interactive Dashboard for Data Visualization

Developed an interactive data visualization dashboard using ReactJS and TypeScript, enabling users to analyze complex datasets with ease. Implemented dynamic charting libraries such as D3.js and Chart.js to provide real-time data insights. Integrated RESTful APIs to fetch and display data

from external sources, enhancing the dashboard's functionality and user engagement. Technologies and tools used: ReactJS, TypeScript, D3.js, Chart.js, REST APIs, Git.

2. Responsive Web Application for Event Management

Built a responsive web application for managing events using AngularJS and Bootstrap, providing a seamless user experience across devices. Designed and implemented a robust backend service with REST APIs to handle event creation, updates, and notifications. Utilized Git for version control and collaborated with a team of developers to ensure timely delivery and deployment. Technologies and tools used: AngularJS, Bootstrap, HTML, CSS, REST APIs, Git.
