

Job Title:

Tech Lead Product Owner

Company Overview:

At Innovative Solutions Inc., we are dedicated to developing cutting-edge technology products that transform industries and improve lives. Our team is passionate about innovation, collaboration, and delivering exceptional results. We are committed to fostering a dynamic and inclusive work environment where creativity and expertise thrive.

Key Responsibilities:

- Lead the product development lifecycle from concept to launch, ensuring alignment with business objectives and customer needs.
- Collaborate with cross-functional teams, including engineering, design, and marketing, to define product vision, strategy, and roadmap.
- Prioritize and manage the product backlog, ensuring clarity and alignment with stakeholder expectations.
- Conduct market research and competitive analysis to identify opportunities for product enhancements and new features.
- Serve as the primary point of contact for product-related inquiries and decisions, providing clear guidance and direction.
- Facilitate agile ceremonies, including sprint planning, reviews, and retrospectives, to ensure efficient and effective product development.
- Monitor and analyze product performance metrics, using data-driven insights to inform future product iterations and improvements.
- Communicate product updates and progress to stakeholders, ensuring transparency and alignment throughout the organization.

Required Qualifications:

- Bachelor's degree in Computer Science, Engineering, Business, or a related field.
- Minimum of 5 years of experience in product management or a related role, with at least 2 years in a leadership position.
- Proven track record of successfully leading cross-functional teams in a fast-paced, agile environment.
- Strong understanding of software development processes and methodologies.
- Excellent communication, negotiation, and interpersonal skills.

Preferred Skills:

- Master's degree in a relevant field.
- Experience with tools such as Jira, Confluence, or similar project management software.
- Familiarity with user experience (UX) design principles and practices.
- Strong analytical skills with the ability to interpret data and make informed decisions.
- Certification in Agile or Scrum methodologies (e.g., Certified Scrum Product Owner).

Benefits:

- Competitive salary and performance-based bonuses.
- Comprehensive health, dental, and vision insurance plans.
- Flexible work hours and remote work options.
- Professional development opportunities, including training and certifications.
- Generous paid time off and company holidays.
- Employee wellness programs and on-site fitness facilities.
