

Job Title:

Tech Lead Product Owner

Company Overview:

At Innovative Tech Solutions, we are dedicated to driving technological advancements that empower businesses and enhance user experiences. As a leader in the tech industry, we focus on delivering cutting-edge solutions that meet the evolving needs of our global clientele. Our team is composed of passionate professionals committed to innovation, collaboration, and excellence.

Key Responsibilities:

- Lead the product development lifecycle from concept to launch, ensuring alignment with business goals and customer needs.
- Collaborate with cross-functional teams, including engineering, design, and marketing, to define product vision and strategy.
- Prioritize and manage the product backlog, ensuring that development efforts align with strategic objectives.
- Conduct market research and competitive analysis to inform product decisions and identify opportunities for innovation.
- Facilitate agile ceremonies such as sprint planning, reviews, and retrospectives to ensure effective team collaboration and continuous improvement.
- Act as the primary point of contact for stakeholders, providing updates on product progress and gathering feedback for future enhancements.
- Mentor and guide junior product owners and team members, fostering a culture of learning and development.

Required Qualifications:

- Bachelor's degree in Computer Science, Information Technology, Business, or a related field.
- Minimum of 5 years of experience in product management or a related role, with at least 2 years in a leadership position.
- Proven track record of successfully launching and managing tech products in an agile environment.
- Strong understanding of software development processes and methodologies.
- Excellent communication and interpersonal skills, with the ability to influence and engage stakeholders at all levels.

Preferred Skills:

- Experience with agile tools such as JIRA, Confluence, or similar.
- Strong analytical and problem-solving skills, with the ability to make data-driven decisions.
- Familiarity with UX/UI design principles and practices.
- Certification in Product Management or Agile methodologies (e.g., CSPO, SAFe).

Benefits:

- Competitive salary and performance-based bonuses.
- Comprehensive health, dental, and vision insurance plans.
- Flexible work schedule and remote work opportunities.
- Professional development programs and educational assistance.
- Generous paid time off and company-sponsored wellness programs.
