

Teodor Mihai Drgan

Technical Skills

- JavaScript, ReactJS
- SQL, PostgreSQL
- Figma, InVision
- AWS, Docker

Foreign Languages

- English: C1
- Spanish: B1
- French: A2

Education

- University Name: University Politehnica of Bucharest
- Program Duration: 4 years
- Master Degree Name: University Politehnica of Bucharest
- Program Duration: 2 years

Certifications

- AWS Certified Cloud Practitioner
- Docker Certified Associate

Project Experience

1. Interactive Web Application for Event Management

Developed a dynamic web application for managing events using ReactJS for the frontend, providing a seamless user experience with real-time updates. Implemented a PostgreSQL database

to efficiently handle event data and user information, ensuring robust data management and retrieval. Utilized AWS services for hosting and scaling the application, leveraging EC2 and S3 for optimal performance and storage solutions. Technologies and tools used: JavaScript, ReactJS, SQL, PostgreSQL, AWS.

2. Collaborative Design Platform

Created a collaborative design platform prototype using Figma and InVision, allowing users to co-create and share design projects in real-time. Conducted user testing sessions to gather feedback and iteratively improve the user interface, focusing on enhancing usability and accessibility. Integrated Docker to containerize the application, facilitating consistent development and deployment environments. Technologies and tools used: Figma, InVision, Docker.
