## Job Title:

Machine Learning Engineer Product Owner

## Company Overview:

InnovateTech Solutions is a leading technology company dedicated to transforming industries through cutting-edge artificial intelligence and machine learning solutions. Our mission is to empower businesses with intelligent systems that drive efficiency, innovation, and growth. We pride ourselves on fostering a collaborative and inclusive work environment where creativity and expertise are valued and rewarded.

## Key Responsibilities:

- Define and communicate the product vision and strategy for machine learning initiatives, aligning with company goals and customer needs.
- Collaborate with cross-functional teams, including data scientists, engineers, and stakeholders, to develop and prioritize product features and enhancements.
- Lead the product development lifecycle, from ideation to deployment, ensuring timely delivery of high-quality machine learning solutions.
- Conduct market research and competitive analysis to identify opportunities for innovation and improvement in machine learning products.
- Develop and maintain a product backlog, ensuring clear and actionable user stories and acceptance criteria.
- Monitor and evaluate product performance, using data-driven insights to inform decision-making and drive continuous improvement.
- Act as the primary point of contact for stakeholders, providing regular updates on product progress and addressing any concerns or feedback.

## Required Qualifications:

- Bachelor's degree in Computer Science, Engineering, or a related field.
- Proven experience as a Product Owner or similar role in a machine learning or AI-focused environment.
- Strong understanding of machine learning concepts, algorithms, and technologies.
- Excellent communication and interpersonal skills, with the ability to effectively collaborate with technical and non-technical stakeholders.
- Demonstrated ability to manage multiple projects and priorities in a fast-paced, dynamic environment.
- Experience with agile development methodologies and tools.

## Preferred Skills:

- Master's degree in a relevant field.
- Experience with cloud platforms such as AWS, Google Cloud, or Azure.
- Familiarity with data visualization tools and techniques.
- Strong analytical and problem-solving skills.
- Experience in a leadership role, managing or mentoring a team.

## Benefits:

- Competitive salary and performance-based bonuses.
- Comprehensive health, dental, and vision insurance plans.
- Flexible work schedule and remote work options.
- Professional development opportunities and continuing education support.
- Generous paid time off and company holidays.
- Employee wellness programs and resources.
