- Write clean, scalable, and efficient code for both the front-end and back-end components of applications.
- Participate in code reviews and contribute to team knowledge sharing.
- Troubleshoot and debug applications to optimize performance.
- Assist in the integration of user-facing elements with server-side logic.
- Stay up-to-date with emerging technologies and industry trends to continuously improve skills and project outcomes.

Required Qualifications:
- Bachelor's degree in Computer Science, Information Technology, or a related field.
- Proficiency in front-end technologies such as HTML, CSS, and JavaScript.
- Basic understanding of server-side languages like Node.js, Python, or Java.
- Familiarity with database technologies such as SQL or NoSQL.
- Strong problem-solving skills and attention to detail.
- Excellent communication and teamwork abilities.

Preferred Skills:
- Experience with modern JavaScript frameworks such as React, Angular, or Vue.js.
- Knowledge of version control systems, preferably Git.
- Understanding of RESTful APIs and web services.
- Exposure to Agile development methodologies.
- Experience with cloud platforms like AWS, Azure, or Google Cloud.

Benefits:

- Competitive salary and performance-based bonuses.
- Comprehensive health, dental, and vision insurance plans.
- Flexible working hours and remote work options.
- Professional development opportunities and continuous learning support.
- A supportive and inclusive company culture that values diversity and innovation.
