Project Experience

1. Interactive Dashboard for Data Visualization

   Developed an interactive data visualization dashboard using ReactJS and TypeScript, enabling

users to dynamically filter and analyze large datasets. Integrated REST APIs to fetch real-time data, ensuring the dashboard remained up-to-date with the latest information. Employed Bootstrap for responsive design, enhancing accessibility across various devices. Technologies and tools used: ReactJS, TypeScript, REST APIs, Bootstrap, Git.

2. Collaborative Design Platform

Led the design and development of a collaborative design platform using VueJS and JavaScript, allowing teams to work together on design projects in real-time. Utilized Figma and Adobe XD for prototyping and user interface design, ensuring a seamless and intuitive user experience. Implemented version control with Git to manage design iterations and maintain project integrity. Technologies and tools used: VueJS, JavaScript, HTML, CSS, Git, Figma, Adobe XD.
