Job Title:

Junior Frontend Developer

Company Overview:

Tech Innovators Inc. is a leading technology solutions provider dedicated to delivering cutting-edge digital products and services. Our mission is to empower businesses through innovative technology and exceptional customer service. We pride ourselves on fostering a collaborative and inclusive work environment where creativity and innovation thrive.

Key Responsibilities:

- Collaborate with design and backend teams to implement user-friendly web interfaces.
- Develop and maintain responsive web applications using HTML, CSS, and JavaScript.
- Assist in optimizing applications for maximum speed and scalability.
- Participate in code reviews and contribute to team knowledge sharing.
- Troubleshoot and debug issues to improve application performance.
- Stay updated with emerging frontend technologies and best practices.

Required Qualifications:

- Bachelor's degree in Computer Science, Information Technology, or a related field.
- Proficiency in HTML, CSS, and JavaScript.
- Basic understanding of version control systems, such as Git.
- Strong problem-solving skills and attention to detail.
- Ability to work effectively in a team environment.

Preferred Skills:

- Experience with frontend frameworks like React, Angular, or Vue.js.
- Familiarity with RESTful APIs and asynchronous request handling.
- Knowledge of responsive design principles and cross-browser compatibility.
- Understanding of web performance optimization techniques.
- Experience with CSS preprocessors like SASS or LESS.

Benefits:

- Competitive salary and performance-based bonuses.
- Comprehensive health, dental, and vision insurance.
- Opportunities for professional development and career growth.
- Flexible working hours and remote work options.

- Generous paid time off and holiday schedule.
- Access to cutting-edge technology and tools.
