Job Title:
Mid-level Product Owner

Company Overview:
At Innovative Solutions Inc., we are dedicated to delivering cutting-edge technology solutions that empower businesses to achieve their goals. Our team is passionate about innovation, collaboration, and excellence, and we are committed to creating a dynamic and inclusive work environment where every team member can thrive. Join us in our mission to drive transformative change across industries with our state-of-the-art products and services.

Key Responsibilities:
- Collaborate with stakeholders to define and prioritize product features and enhancements that align with business objectives.
- Develop and maintain a clear product roadmap, ensuring timely delivery of features and improvements.
- Translate high-level product requirements into detailed user stories and acceptance criteria.
- Act as the primary liaison between the development team and stakeholders, facilitating communication and ensuring alignment.
- Conduct regular backlog grooming sessions to prioritize tasks and ensure the development team has a clear understanding of the product vision.
- Analyze market trends and customer feedback to identify opportunities for product innovation and improvement.
- Monitor product performance and user engagement metrics to inform future product decisions.
- Lead sprint planning and review meetings, ensuring that the product development process is efficient and effective.

Required Qualifications:
- Bachelor's degree in Business, Computer Science, or a related field.
- 3-5 years of experience in a Product Owner or similar role within an Agile environment.
- Strong understanding of product management principles and Agile methodologies.
- Excellent communication and interpersonal skills, with the ability to work effectively with cross-functional teams.
- Proven ability to manage multiple priorities and projects simultaneously.
- Experience with tools such as JIRA, Confluence, or similar project management software.

Preferred Skills:

- Certified Scrum Product Owner (CSPO) or equivalent certification.
- Experience in the technology or software development industry.
- Strong analytical skills with the ability to interpret data and make data-driven decisions.
- Familiarity with UX/UI design principles and practices.
- Experience working with remote or distributed teams.

Benefits:

- Competitive salary and performance-based bonuses.
- Comprehensive health, dental, and vision insurance plans.
- Generous paid time off and flexible work arrangements.
- Professional development opportunities and tuition reimbursement.
- Collaborative and inclusive company culture with regular team-building activities.
- Access to cutting-edge technology and tools to support your work.
