Project Experience

1. Interactive Portfolio Website

   Developed an interactive portfolio website using HTML, CSS, and JavaScript to showcase design

and development skills. Utilized ReactJS and Bootstrap to create a responsive and visually appealing user interface. Integrated Figma and Adobe XD for designing prototypes and wireframes, ensuring a seamless user experience. The project was part of an academic course, focusing on modern web development practices and responsive design.

2. Mobile App Prototype Design

Designed a mobile app prototype using Adobe XD and Figma during an internship, focusing on user-centric design principles. Conducted user research and usability testing to refine the app's interface and improve user engagement. Collaborated with a team of developers to ensure the design was feasible and aligned with technical requirements. This project highlighted the importance of iterative design and user feedback in the development process.
